Human Ceruloplasmin Antibody

Goat Polyclonal

IgG Fraction

Catalog No. A80-124 GeneID 1356

Lot No. A80-124-4

APPLICATIONS IEP, DD

SPECIES REACTIVITY Human

AMOUNT 2 ml

STORAGE/SHELF LIFE 2 - 8° C / 2 years from date of receipt

PHYSICAL STATE Liquid

BUFFER Phosphate Buffered Saline (PBS) containing 0.09% Sodium Azide

ISOTYPE IgG
ORIGIN USA

PRODUCTION Goats were immunized with purified human ceruloplasmin of serum or plasma origin.

PROCEDURES Antiserum was solid phase adsorbed to ensure specificity. The antiserum was fractionated

and passed over DEAE to yield an IgG fraction.

By immunoelectrophoresis, the antiserum reacts specifically with human ceruloplasmin. No

antibody was detected against other non-immunoglobulin serum proteins.

APPLICATIONS Centrifuge tube to remove product from lid. Optimal working dilutions should be determined

experimentally by the investigator. Prepare working dilution immediately before use.

IEP Neat

DD Neat

APPLICATION NOTES For use in precipitin gel reactions; such as, immunoelectrophoresis (IEP), double diffusion

Ouchterlony (DD) or immunofixation electrophoresis (IFE).

Optimal working dilutions should be determined experimentally by the investigator.
