## Anti-Human Galectin-9 Capture Antibody PRODUCT SPECIFICATIONS

Catalogue N° 879.990.001 - 1.0 mg

**Target species** Human

> Specificity Recognises both natural and recombinant human

> > Galectin-9

Clone B-T33

Application **ELISA** 

Hybridoma Myeloma X63/AG.8653 x Balb/c node cells

**Immunisation** Recombinant human Galectin-9

> Quantity 1mg / 1ml

Isotype Mouse IgG2b Kappa light chain

**Format** Phosphate-buffered saline. Sterile-filtered through

0.22 µm. Carrier and preservative free

Storage Stable at +2-8°C for 12 months. For longer storage

freeze aliquots.

**Working Dilution** ELISA: 1-10µg/ml

Additional Information This Antibody can be used as Capture in a human

> sandwich Immunoassay. The suggested coating concentration range should be optimised by each

laboratory for each application.

Synonym HUAT

**Ecalectin** 

LGALS9

As a material condition to Diaclone providing its Products to Purchaser, Purchaser agrees that the end user shall not, directly or indirectly, attempt to reverse engineer, disassemble, or otherwise perform any compositional, structural, functional or other analyses directed to learning the methodology, components, formulae, processes, make-up, or production of any Product or any portion thereof.

Version 1 - 09.19

For research use only

## **Discover Diaclone**

With over 30 years experience and extensive expertise, we are commited to providing excellence in Monoclonal Antibody and Immunoassay development.

The expanding range of Diaclone Immunology products is specifically designed to advance research applications.

Our experience and expertise coupled to the diversity and quality of our product range makes Diaclone a clear choice to:
